Tannas Conservation Services Ltd.  
Box 31  
Cremona, AB, T0M 0R0

Tannas Conservation Services Ltd. is pleased to host a 2016 Wetland Assessment Course. Currently no day has been selected yet for the course.

This course has been built around the techniques and knowledge required to assess wetlands with multiple techniques including: Riparian Health Assessments, Stewart and Kantrude Classification, Alberta Wetland Classification, and associated assessments required under the Alberta wetland policy. The course will include classroom instruction on wetland assessment as well as a field component.

## Day 1 (Alberta wetland policy)

In this component there will be a half day review and learn the assessments required under the Alberta wetland policy : Alberta Wetland Classification System, the AWRET-A Form and a general overview of the Alberta wetland policy. In the field we will put into practice these assessment techniques including a general classification of wetlands, soil assessment, and filling out the required assessment forms.

## Day 2 (Riparian Health and Stewart and Kantrud)

In this component there will be a half day review and learn to use the Stewart and Kantrude classification system and Riparian Health Assessments. The morning will be spent in classroom reviewing the assessments and the afternoon will be spent in the field learning to assess soils vegetation, and classify wetlands.

## Day 3 (Field assessments)

The final day of the course will focus on plant identification, soil classification, and putting into practice each assessment technique. Instructors will act as coaches to help everyone complete their own assessments.
