

Jr. Environmental Technician focused in Land Reclamation

Tannas Conservation Services Ltd. (TCS) is seeking a motivated Junior Environmental Technician for a summer position supporting land reclamation projects. This role involves a mix of field and office work, providing hands-on experience in environmental assessments, vegetation monitoring, and soil sampling. The ideal candidate is detail-oriented, eager to learn, and comfortable working outdoors in varying conditions.

Responsibilities may include assisting with site assessments, data collection, plant identification, and report preparation. Preferred skills include knowledge of soils, vegetation, and reclamation practices, experience with qGIS or other mapping software, strong observation and technical writing skills, and the ability to work independently and as part of a team. At TCS, we value collaboration and mentorship, providing opportunities to develop technical skills and gain real-world experience in environmental consulting.

Roles and Responsibilities:

- Support field programs primarily in Alberta and BC
- Conduct pre-reclamation assessments and detailed site assessments (DSA) for oil and gas sites.
- Assist with vegetation management, including identifying native and invasive plant species.
- Act as a site supervisor for minor reclamation activities.
- Perform data collection and management, ensuring accurate and organized records.
- Ensure compliance with environmental regulations and industry best practices.
- Assist with project coordination, including scheduling, reporting, and communicating with team members.
- Support our Rangeland Ecology Program and Biophysical team from time to time
- Communicate and build collaborative relationships with team members, clients, and subcontractors.
- Participate in all aspects of the TCS safety program

Requirements and Skills:

- Canadian citizen
- Post-secondary degree (BSc., MSc) or diploma in a relevant discipline (may be currently enrolled)
- Plant identification skills are considered an asset.
- Valid class 5 driver's license
- Comfortable and competent working independently and self-driven
- Strong teamwork, communication, and organizational skills
- Strong technical writing skills and data management
- Passion for challenges, learning, and open to diverse types of work

Jr. Environmental Technician focused in Land Reclamation

Tannas Conservation Services (TCS) is a small but dynamic environmental consulting firm passionate about tackling complex projects across the diverse landscapes of western Canada. We work with a wide range of clients, including government agencies, non-profits, landowners, and industries such as mining, oil and gas, and renewables. Currently, we are seeking an enthusiastic and detail-oriented **Junior Environmental Technician** to support our reclamation and environmental assessment projects.

This role involves both field and office work, with responsibilities including **vegetation and soil assessments, data collection, site monitoring, and reporting**. The ideal candidate is eager to learn, adaptable to various field conditions, and comfortable working as part of a small team. Preferred skills include **plant identification, soil assessments and vegetation management skills** with post-secondary education in environmental science, agriculture, or a related field considered an asset.

At TCS, we foster a collaborative work environment that encourages mentorship, skill development, and hands-on learning in the field of environmental consulting.

Start date: May 2025
Location: Calgary (surrounding area)
Duration: Full-time Position
Office: Remote office (home office)
Travel: Mostly within the east, southeast Alberta area
Salary: Negotiable depending on skill and experience

TCS provides competitive benefits including a flexible health spending account, sick days, access to TCS speciality technical courses, support for professional development training, vacation, and a flexible work from home arrangement.

We are open to other combinations of skills and experience to find the best possible candidate for this position.
